INSHORTS

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING ENGINEERING

VISION

To be a department focused on quality education and research in Artificial Intelligence & Machine Learning that prepares early professionals contributing to serve the society.

MISSION

- To provide an academic environment for the development of professionals in the field of Artificial Intelligence and Machine Learning.
- To cultivate research culture resulting in knowledge and development of the society.
- To enhance academic collaborations for better exposure.

Contents

- 1. Session on Grooming & Dressing.
- 2. Hands-on Postman API.
- 3. Women's Day Celebration.

PREPARED BY,

Mr. Ashish Yadav

Mr. John Kenny

Ms. Priyanka Bhoir

1. Session On Grooming and Dressing

On 16th February 2023, the Women's Development Cell of our institution organized a session on "Grooming and Dressing" for the female students. The session aimed to empower the girls by teaching them how to present themselves professionally and effectively in various settings.

The session began with a brief introduction of the topic and its significance in the present scenario. The speaker then provided practical tips on grooming and dressing, such as how to choose appropriate clothing, how to accessorize, and how to do basic makeup. She also shared information on personal hygiene, body language, etiquette, and social graces.

The session was conducted in an interactive manner, and the participants actively participated by asking questions and sharing their experiences. The speaker addressed all the queries and provided personalized advice to the participants.

2. Hands-on Postman API at UCoE

On 24th February 2023, a session on Postman API was conducted in Computer Centre(E-201) by The Computer Engineering Student Association. The session aimed to educate the students on the use of Postman, a popular API development tool used by developers around the world.

The session began with an introduction to APIs, their importance in software development, and their various types. The speaker then provided an overview of Postman, its features, and how it can be used to develop, test, and document APIs. The session covered topics such as creating and sending API requests, handling responses, and testing APIs.

The session was conducted in an interactive manner, and the participants actively participated by asking questions and sharing their experiences. The speaker addressed all the queries and provided hands-on experience to the participants by demonstrating the use of Postman through practical examples.

The feedback received from the participants was overwhelmingly positive. The students found the session to be informative, engaging, and helpful in their understanding of APIs and Postman.

In conclusion, the Postman API session conducted was a huge success. It provided the participants with practical knowledge on the use of Postman, a popular API development tool used by developers worldwide. The students gained hands-on experience and were able to understand the importance of APIs and how to use them effectively. The college deserves appreciation for organizing such a useful session for the students.
